Hon. Steven Rhodes

The emergency manager's plan of adjustment shows a small vision for generating revenues. For the benefit of one creditor ( retiree's) a term increase of some amount to (sports and entertainment) tickets sold for Detroit events can. Also the ( U.S./Canadian tunnel and DIA). Admission would help restore Detroit's pension system. The State of Michigan has not done enough to help? Including Congress personnel and the Mayor. To this day no one has ask the Federal Government for a loan similar to that which was given to several Auto Companies when they were in a state of crisis. If all ideas are embraced and new things are tried. This is a Federal case, why can't Detroit's pension system be put under the umbrella of the Federal or States system.
